Re: In the Matter of the Connect America Fund, WC Docket No. 10-90 and High Cost Universal Support, WC Docket No. 05-337; Corrected Number of Exchanges for Sacred Wind for the purpose of establishing QRA Caps

Dear Ms. Dortch,

Sacred Wind Communications ("Sacred Wind"), Study Area 493403, respectfully requests that the Federal Communications Commission ("Commission") correct the erroneous "Number of Exchanges" independent variable for the caps on capital investment and operating expense high cost loop support algorithm derived from quantile regression analysis ("QRA Caps"). Sacred Wind requests that this change be effective with the 2012 QRA Caps for Sacred Wind and forward.

In the independent variables of the QRA Caps, the Commission has listed the number of exchanges for Sacred Wind to be one (1). However, Sacred Wind's Local Tariff demonstrates that the number of exchanges is, in actuality, two (2).

It is Sacred Wind's understanding that this data was supplied by the National Exchange Carriers Association ("NECA"). Accordingly, Sacred Wind has contacted NECA to correct the number of exchanges listed for Sacred Wind in its databases. This correction will be reflected in upcoming reports by NECA to the Commission.

If you have any questions regarding this data correction, please don't hesitate to contact me directly.

Respectfully Submitted,

Stacey Brigham
